Meet Specview™

Deliver Interactive 3D Visual Product Experiences Online

Transform your CAD assets into interactive 3D visualizations directly on your website to empower users to engage with products and download CAD assets online without engineering.

Why **CDS Specview?**

Embed Interactive 3D Previews
Enable embedding of interactive 3D previews directly onto your website.

Cross-Device Compatibility
Ensure 3D model viewing across all web browsers and devices.

Interactive 2D/3D Exploded Views
Instantly explore and identify components.

One-Click Snapshots of 3D models
Take snapshots of your 3D models at any angle for documents and presentations.

Add annotations and highlights
Add annotations to highlight important details and facilitate collaboration.

Navigate and Rotate 3D Models
Easily navigate and rotate 3Dmodels for comprehensive and interactive viewing.

Universal Web-Based CAD File Loading
Upload any CAD files regardless of underlying systems.

Take Accurate Measurements
Take measurements within the viewer.

Multi-Format CAD Downloads
Easily download CAD files into any compliant file format.

Clipping Planes and Capping
Utilize clipping planes and capping for a clearer view of intricate designs.

> RFQs from CDS catalog [Specview] are the highest quality leads that GAM receives. Because of the high quality of these leads, GAM sales reps are excited to receive them.
