Discover Mentor – Digital Work Instruction Solution for Manufacturing Companies

Mentor is an out-of-the-box, intuitive, and powerful solution for manufacturing companies to create and deliver 3D work instructions, and immersive digital 3D training experiences.

Our digital learning platform utilizes 3D visualization to deliver knowledge and expertise to your companies' frontline workers.

CDS Mentor is a cloud-based SaaS solution that goes beyond traditional work instructions to enable the transformation of existing CAD assets into immersive learning experiences.

Mentor helps manufacturing companies improve their efficiency

Standardize Work

Create ISO compliant step-by-step 3D work instructions to document procedures for worker training across teams, shifts, and locations.

Reduce training time

Onboard new workers with interactive 3D learning that adapts to their style of learning. Upskill quickly with 3D work instructions that reduce the errors associated with traditional training and instruction methods.

Increase efficiency

Digitize manufacturing and field service processes to empower frontline workers to deliver improvements in quality, safety, and productivity.

Capture Tribal Knowledge

CDS Mentor makes it easy for subject matter experts to document their tribal knowledge and deliver it to frontline workers.

Quickly and easily create interactive 3D learning content

CDS Mentor provides an easy way to capture best practices from experts to create interactive step-by-step 3D work instructions from your existing CAD data. By offering an intuitive no-code interface, CDS Mentor enables content authors to quickly create rich, interactive 3D content that provides crucial information to frontline workers.

Mentor Features

	Business	Enterprise
Included viewer seats	15	Unlimited
Included author seats	2	10

Included Features	
Free trial	14 days
Storage (in GB)	Unlimited
SLA	Priority
Support	Help Center access, dedicated email support, dedicated onboarding support
# of Instructions	Unlimited
Bandwidth	Unlimited
3D editor	Yes
Instant distribution	Yes
Single click publish to apps	Yes
Web app	Yes
iOS AR app	Coming soon
QR code generation	Yes
Pre-requisites procedure	Yes
Role based access	Yes
Configurable notifications	Coming soon
Standard reporting	Yes
User management	Yes
SSO authentication	Coming soon
Versioning and audit trail	Yes
Approval workflows	Yes
Remote assistance	Add On
Multilingual	Coming soon
Instruction feedback	Yes
Customized logo and colors	Yes
Team and user management	Yes
